

An aerial photograph of Zurich, Switzerland, taken at sunset. The city's dense urban landscape is visible, with numerous buildings and streets. The city is situated along the shores of a large body of water, likely Lake Zurich, which reflects the vibrant orange and pink hues of the setting sun. In the background, rolling hills and mountains are silhouetted against the colorful sky. The overall atmosphere is serene and picturesque.

Dear Delegate,

It is an honour and privilege to welcome you to ZuMUN's seventh edition – in the spring of 2022 which finally brought about the return of in-person conferences after all these trying times!

Uncertainties in the world due to the Coronavirus pandemic and recent events in international politics have highlighted the need for an increased investment into the future of diplomacy. If we want to prevent future wars, sharpen our minds to come up with new solutions, we need to reimagine what it means to be a diplomat on the frontlines of today's most pressing issues. This is where you spring into action. This year's theme "Re:think, Re:shape, Re:create" invites you to delve into the world of international relations and come up with new approaches for the various conflicts and problems we are faced with today. We hope you will be inspired by our fantastic chairs and the topics at hand to tackle the roots of these problems and and talk about solutions that will improve the future for all of us.

Our Secretariat and Organizing Committee has been extremely hard at work to guarantee you a great conference experience. Our team this year has been diverse in academic thought, backgrounds and perspectives and it has been exceptional working with them over the course of the last few months. They deserve our greatest gratitude and admiration, for without them this would not have been possible.

We look forward to hosting you in Zurich -  
Bis bald und uf Wiederluege!

## A Word of Welcome by the President of the ETH

**ETH** zürich

Dear participants of this year's ZuMUN conference,

It is a great pleasure for me to welcome you on behalf of ETH Zurich! I wish you a successful and inspiring conference and enriching encounters, from which many friendships will surely emerge.

It is associations and organisations such as MUN ETH and MUN UZH that make a significant contribution to a vibrant campus and ultimately to an attractive university town. I am extremely grateful for this engagement and would like to congratulate both organisations - MUN ETH and MUN UZH - most warmly on their 15th anniversary! I am convinced that you will celebrate this anniversary accordingly at this year's conference and wish you a most successful event.

Prof. Dr. Günther Dissertori  
President of the ETH

## A Word of Welcome by the President of the UZH

Welcome to the University of Zurich and to this year's Zurich Model United Nations conference! We greatly value the international exchange of knowledge and are thus delighted to welcome once again students from all over the world at UZH.

The 2022 ZuMUN conference takes place under the following motto: "Rethink, Reshape, Recreate" – three keywords of particular relevance against the backdrop of the pandemic situation, armed conflicts, and global ecological challenges. Today, more than ever, we need young talents who are committed to rethinking existing solutions to reshape the world around us.

As a research university with international renown, it is a main aim of UZH to not only provide the scientific basis for solving global problems, but also to shape the future by education the next generation of experts and future thought leaders – people who will be able to make a difference and bring about positive change.

We are therefore truly excited that the ZuMUN conference brings together highly motivated students with different backgrounds to discuss global problems and to strengthen their negotiation and public speaking skills. Let me assure you that we will do our best to make sure that ZuMUN 2022 will be remembered as an event full of intellectual challenges, but also as an opportunity to network and form friendships.

Dear participants, I am happy to have you here, and I hope that your stay at our university will be an inspiring and memorable experience for all of you!

**University of  
Zurich** <sup>UZH</sup>

Prof. Michael Schaeppman  
President

We would like to say

# THANK YOU!

to our amazing Sponsors. Without your generous support, ZuMUN would be nothing but an idea!

Since the very first conference in 2015 we could rely on our two main partners:

**Universität  
Zürich** UZH

Founded in 1833, the University of Zurich (UZH) is Switzerland's largest and best ranked comprehensive university, with a current enrollment of over 29,000 students. Made up of seven faculties covering approximately 100 different subject areas, UZH is proud to

offer the most comprehensive academic program in the country. Twelve Nobel Laureates have studied, taught or conducted research at the University of Zurich. It was the first university in Europe to be founded by the state rather than a monarch or church.

**ETH** zürich

ETH Zurich is one of the leading international universities for technology and the natural sciences. It is well-known for its excellent education, ground-breaking fundamental research and for implementing its results

directly into practice. Founded in 1855, ETH Zurich today has more than 24,500 students from over 120 countries. To researchers, it offers an inspiring working environment, to students, a comprehensive education. Twenty-one Nobel Laureates have studied, taught or conducted research at ETH Zurich, underlining the reputation of the university.

Further supporters of  
ZuMUN 2022:

Is it true that the real espresso exists only in Italy? The cliché lasted a long time, until a coffee connoisseur named Renato Cecchetto had a good idea in 1986: to bring quality Italian coffee and thus the pleasure of a perfect espresso to Switzerland. CECCHETTO Import AG is known as the specialist in the art of preparing Italian coffee in Switzerland. The historic company owes this success to its sophisticated and revolutionary system:

the idea of providing Cecchetto coffee machines free of charge, thus saving its customers the need to buy a machine. In 1996, Cecchetto became Lavazza's exclusive importer and main distributor in Switzerland and is still focusing on increasing the presence of its systems, guaranteeing their quality and image.

# Getting around in Zurich

The easiest way to get from A to B in Zurich is by public transportation and on foot. You can find all schedules on the ZVV website: [www.zvv.ch](http://www.zvv.ch).

Tram and bus lines run from 6am to 1am mostly every 7 to 10 minutes. On Friday and Saturday nights, there is the special nighttime network (see below). You should always carry a valid ticket with you since there are regular ticket controls and high fines.

Public  
Transport  
Schedules

## How to get to the University / ETH campus:

- From Zurich Main Station or Central take Tram No. **6** (direction Zoo) or **10** (direction Zürich Flughafen) to ETH/Universitätsspital.
- From Bellevue take Tram No. **9** (direction Hirzenbach) to Kantonsschule or ETH/Universitätsspital, or Tram No. **5** (direction Kirche Fluntern or Zoo) to Kantonsschule or Platte.

**Taxis:** There are several taxi companies in Zurich, which you can easily order by phone and require a waiting time of about 5 – 10 minutes. There are also several taxi stands, in particular around Bellevue and in front of the main station. The basic fare is approximately 6 CHF and every kilometer is about 3.80 CHF.
